Mrs. TERESITA M. VELASCO
 Officer In-charge
 Regional Director, DepED- CAR

DepED DIVISION OF BAGUIO CITY

SEP 28 2011

RECEIVED

Madam:

Warmest greetings from the Philippine Society for the Study of Nature – Cordillera Administrative Region (PSSN-CAR) Chapter.

We are pleased to inform you that, since its last conference in 2006, the PSSN-CAR will hold its 5th Annual Scientific Conference with the theme **“Strategies Towards the Conservation and Restoration of Natural Resources”** at the Benguet State University in La Trinidad, Benguet on **November 19 and 20, 2011**. The two-day activity will be highlighted by a keynote lecture of *Dr. Edgardo Gomez*, plenary talks, competition for Best Paper and Best Poster, paper and poster presentations, and a business meeting of the PSSN-CAR that will tackle issues concerning the chapter as well as the election of the new set of officers and the Board of Directors. The conference aims to bring together scientists, educators, environmental managers and students from all over the CAR and nearby regions to address the conference’s 3-fold objectives:

- To share research and experiences in the conservation and restoration of various ecosystems
- To present, by way of the keynote and plenary sessions, strategies and efforts that have been effective and that can be adopted in other areas, and
- To present current issues that concern the protection, conservation, and the restoration of species, habitats and ecosystems within the CAR and nearby regions

This year’s conference will have 4 parallel sessions that highlight conservation and restoration in 4 distinct ecosystem groups, namely:

1. Agricultural Ecosystem
2. Terrestrial Ecosystem (forest, mountain and grassland systems)
3. Inland Aquatic Ecosystems (lake, river, pond, as well as man-made freshwater systems)
4. Marine and Coastal Ecosystems (coral reef, seagrass, seaweed and mangrove systems)

Presenters (for both oral and poster submissions) are encouraged to submit research abstracts that are within the scope of any of the 4 ecosystem groups not later than **15 October 2011 for regular entries and October 22 for competing papers (with full paper)**. Papers must not have been presented in any national and international conferences. For more information, please find attached brochure and the abstract submission form for the conference.

In this regard, the association is requesting for an endorsement from your good office re: conduct of said activity to all the divisions in the Cordillera Administrative Region.

Attached is a brochure with the details on the conduct of said activity.

Thank you very much and more power! God Bless!

Respectfully yours,

 JACQUELINE LAMPAC, Ed. D.
 President, PSSN-CAR 2010-2011
