2. To help develop our present as well as future teacher leaders to be more responsible and conscious;
3. To make the teacher leaders aware of their benefits from as well as responsibilities to the different government agencies that they relate with;
4. To make the participants aware about the present national situation and its relation to the overall teachers and education situation of our country;
5. To educate them on the proper handling of issues and problems that may arise within their respective schools or their other member schools between the administration and teachers, among teachers and between teachers and parents or teachers and students, thereby creating a harmonious atmosphere and environment in the school and community.
