Sir:

Schools house a large number of students and school employees each day making the impact of earthquakes in these institutions very great, thus; there is a need for students and school employees to have an established action plan and familiarize themselves with it in order to properly respond to an earthquake scenario.

Pursuant to DepEd Order number 48 s. 2012, Quarterly Conduct of the National School-Based Earthquake and Fire drills to strengthen public awareness and improve community preparedness which are key strategies in reducing disaster risk, may we request your office to enjoin all public and private elementary and secondary schools to participate in the 1<sup>st</sup> Quarter Nationwide Simultaneous Earthquake Drill on March 18, 2013, Monday at 9:00 AM.

May we also request your good office to submit after drill reports not later than March 22, 2013 to the CDRRMC Operation Center at City Hall or thru Telefax number 442-6607.

Thank you for your continuous support.

Very truly yours,
