FRANCIS CESAR BRINGAS
Schools Division Superintendent
Department of Education
Baguio City

Dear Superintendent Bringas,

Ecological solid waste management is a very important concern that needs to be addressed by all stakeholders, educational institutions included. May we thus invite you and request for your endorsement for the principals of public and private schools of the city to participate in an interactive forum entitled, "Understanding the City's 10-Year Solid Waste Management Plan (2015-2024)" that will be held on Friday, May 13 at 2:00 p.m.-5:00 pm, at the University of the Cordilleras Function Hall, P.E. Building.

The activity aims to create awareness on waste management particularly on the 10-year Solid Waste Management Plan (SWMP) of Baguio City and know its implications in regard to managing our waste resources, our health and environment (air quality and water table and waterways), fiscal spending, and people's livelihood along the waste stream. It will also be an opportunity for us to appraise the sustainability of the technologies that are contained in the plan.

Invited resource speakers are Mr. Froilan Grate of Mother Earth Foundation, Mr. Romeo Concio, Head of the General Services Office of the City, Atty. John Ray Libiran, Faculty member of the College of Law, University of the Cordilleras, Mr. Rafael Lopez of Global Alliance for Incinerator Alternatives and Ms. Ayeth Enrile of Health Care Without Harm-Asia.

This forum is a joint effort of UC's Green Committee, UP Baguio's Green Committee, Maryknoll Ecological Sanctuary and the Zero Waste cluster of The Baguio We Want.
