

9 June 2017

FEDERICO P. MARTIN, Ed.D, CESO IV
 Schools Division Superintendent
 Division of Baguio City

Sir:

One of the major components of the Philippine Population Management Program is the Adolescent Health and Youth Development Program (AHYDP). The goal of AHYDP is to improve the total well-being of Filipino youth. It aims to help adolescents and youth avoid risky sexual behaviors to reduce incidence of teenage pregnancies, early marriages, sexually transmitted infections (STIs), and, other psycho-social concerns.

The Health Services Office (HSO), through its AHYDP adopted several strategies to achieve the goals and objectives of the program. These include Information, Education, Counseling (IEC), and advocacy campaign to both the in-school and out of school youth; 101 XSX, i.e. 101 ways to become empowered youth, and "X" or "NO" to early sex "SX"; U4U (You-for-You) Youth Hub; and Teen Trail, which is an educational and entertaining teen caravan focused on discussing Adolescent Reproductive Health (ARH) issues and threats for teens.

In this light, our office in coordination with the Commission on Population – CAR will be conducting **Training of Trainers (TOT) on 101 XSX Teen Facilitators Training and Teen Trail Activity** on **July 3-4, 2017**, at our office's (HSO) Conference Hall. Thus, we are inviting two (2) participants each school, preferably the Faculty-In-Charge and Guidance Counselor of the following five (5) public schools and five (5) private schools to attend said training.:

<i>Public Schools</i>	<i>Private Schools</i>
1. Irisan National High School	1. UC Laboratory High School
2. Quezon Hill National High School	2. Baguio City Science Foundation High School
3. Joaquin Smith National High School	3. SLU Laboratory High School
4. Roxas National High School	4. Saint Louis High School, Inc. – Pacdal
5. Baguio City National High School – Main	5. Saint Louis School of Aurora Hill, Inc.

Thank you for your continuing support and partnership to our program, and we look forward to welcoming the respective participants of the training.

Sincerely,

ROWENA P. GALPO, MD, MPH
 City Health Officer

HEALTH FOR ALL

The round metal gong of the Cordillera known locally as "gangsá" is a symbol of the upland people's culture that has been passed on from generations to another.

The profile of a person blowing a "tanggyub" represents a community being called for an important matter or action.

The lines that shape the mountains, the rice terraces, clouds and rivers symbolize the connectivity and flow of human interaction in a geographic area such as the Cordillera.

All the symbols combined represent unity and harmony of its people with culture and environment in beating the gong for self determination.
