

DEPARTMENT OF NATIONAL DEFENSE
OFFICE OF CIVIL DEFENSE - CORDILLERA ADMINISTRATIVE REGION

2nd Floor AFPSLAI Building, Camp Henry Allen, Baguio City, Philippines 2600

February 6, 2018

FEDERICO P. MARTIN, EdD CESO V.
Schools Division Superintendent
Deped, Baguio City, Benguet

Dear Sir Martin;

Greetings from the Office of Civil Defense-Cordillera!

The Cordillera Administrative Region has six (6) earthquake generators and seven (7) inactive volcanoes; we also lack technology to predict seismic activities. Given these facts, we need to level up our disaster preparedness especially for earthquakes.

As prescribed by the National Disaster Risk Reduction and Management Council (NDRRMC), the First Quarter Nationwide Simultaneous Earthquake Drill (NSED) for 2018 is on February 15, 2018 at 2:00 PM. All government agencies, offices, local government units and other concerned stakeholders are enjoined to participate.

In this regard, to ensure successful drill implementation, we would like to request for **DRILL UMPIRES/ASSESSORS** from your good office to evaluate and monitor the conduct of earthquake drills. Furthermore, we would like to invite designated umpires in the **Mass Orientation for Drill Umpires** scheduled on **February 13, 2018 at 09:00 AM**, at the Golden Pine Hotel, Baguio City.

For any inquiries regarding this activity, you may reach Ms. Fairybelle Liwayan, Operations officer through our office landline (074) 619-0986 or (074) 444-5298.

We believe that your agency's/personnel's expertise towards this endeavor would contribute a great positive impact especially with this kind of disaster preparedness program.

Thank you very much for your unwavering support to DRRM programs in the region.

Yours respectfully,

ANDREW ALEX H. UY
Regional Director, OCD-CAR &
Chairperson, Cordillera RDRRMC
