Subject: Invitation to attend to a 2-day Training Proposal for LINUX, Firewall and Python Scripting

Dear Mr.,

Greetings!

We would like to invite you to attend to a 2-day training workshop on Linux, Firewall and Python Scripting to be held on **March 23 and 24 2019** at 9/F One San Miguel Avenue Corner, Show Boulevard Ortigas Center, Pasig City. The training is being organized by Kalix Cyber Security Training and Solutions with the overarching goal of strengthening technical capacity that will capacitate IT practitioners and resolutions that will help private and public organizations to effectively defend and efficiently respond to ever-evolving cyber threats.

The main role of the Linux training is to equip and enhance the knowledge of your technical team from basic usage of Linux and its importance/benefits. On the other hand, the Firewall training helps the attendees understand the concept of open source firewall, installation procedures and proper configuration of rules.

It will be also bundled with basic Python Scripting to help automate the process of conducting vulnerability assessment in your network. Thus, these trainings were guaranteed as the cheapest way to protect and enhance your defensive network posture.

The said training will be conducted by a team of high-caliber and certified cyber security professionals who are capable to conduct comprehensive Vulnerability Assessment and Penetration Testing (VAPT) and offers a lab-intensive cyber security training to IT enthusiasts from basic to advance.
