MADAM:

The World organization of Scout Movement (WOSM), in collaboration with the World Wildlife Fund, SolarAfrica and Greenpeace, is providing an integrated environmental conservation, awareness and protection structure program called **EARTH TRIBE** to address the climate change issues.

EARTH TRIBE is a global community of young people who are passionate about the environment and actively engaged as global citizens to preserve and protect our planet. It is also an initiative centered around the educational area of environment and sustainability.

To support this action, we nominated Scout Leaders from our Council to participate in this endeavor as Earth Tribe Challenge Ambassadors for program and implementation.
