Dear Dr. Verano,

Greetings!

The **ABM Organization** of Kingfisher School of Business and Finance is proud to announce the upcoming online **4th Kingfisher ABM Cup Regional Eliminations** on **26<sup>th</sup> of March 2021 (Friday), 8 o'clock in the morning through a Zoom Conference.**

This event aims to create a platform for senior high school students to showcase their skills in Fundamentals of Accounting, Business, and Management. In line with this year's event, the organization will be inviting various schools nationwide from Luzon, Visayas, and Mindanao with the aim to enhance the student's confidence through expansion of network and camaraderie among delegates from other schools in the region and in the Philippines. This event is **free of charge** and in order to ensure impartiality, **Kingfisher's ABM students will not be allowed to join the competition.**

In this regard, we would like to request your good office to endorse the said event by sending division memoranda to the schools involved. For more information on the guidelines, kindly refer to the Implementing Rules and Regulations (IRR) included in the packet file (<https://tinyurl.com/lir16wmh>).

Should you have further queries, we would be glad to accommodate your concerns through email or contact number provided in this letter.

Thank you and we look forward to meeting your delegate/s at this event.

Respectfully,

**Genial Olein P. Santos**  
VP for Academics

Good day!

R is being used worldwide. It is used in almost every industry, ranging from finance, banking to medicine and manufacturing. Many companies both international and national are adopting the use of R to cater to their data/statistical analysis requirement. Hence, it is important that we learn how to use and understand the basics of R language since it has become ubiquitous in the field of research and management.

R plays a very important role in Data Science. It is great for visualization and has far more capabilities as compared to other tools. For data-driven businesses, the lack of Data Scientists is a huge concern. Companies are using R programming as their core platform and are recruiting trained R programmers. Hence, STRAT One is inviting you to attend our training-workshop titled: **Introduction to Statistical Analysis using R on April 16, 17 & 24, 2021 via Zoom (minimum of 7 hours daily).**

*The registration fee is P2500.00 inclusive of 12% VAT, digital handouts, datasets, installer of R, digital certificates (of participation, completion, and attendance), recording of the webinar and the learning experience.*

The objective of the training-workshop are the following:

- \*Understand how each statistical analysis work such as the assumption and data requirements.
- \*Learn how to run the statistical analysis using R.
- \*Identify the right statistical tool for a specific business or research problem.

The methodology of the training-workshop is to discuss the theoretical background and the purpose of the statistical test. On the succeeding days, participants will engage in an extensive workshop using R.

STRAT One has been operating for a year now, catering to the market research and training requirements of BPOs, various government agencies, and academic institutions here in the country. The STRAT One (Strategic One Business Management Consultancy Firm) is an emerging business that provides  world-class  webinars, training, seminar, and conferences at an affordable price for the market. We believe that learning management, marketing, business strategy, data science, and research should be affordable for us (the Philippines) to emerge as a leading business destination in the ASEAN. Moreover, STRAT One aims to democratize analytics here in the Philippines.

Since the last quarter of 2019 CHED temporarily stopped the issuance of CHED endorsements. Hence, our fees are aligned to the DBM memorandum on National Budget Circular no. 563 series of 2016.
