MARIE CAROLYN B. VERANO
Schools Division Superintendent
Baguio City Branch
Department of Education

Greetings!

We are the U.P. Pre-Medical Society, a duly recognized, university-wide, socio-academic organization in the University of the Philippines, Diliman. Since 1956, the Society has spearheaded community-oriented projects such as medical-dental-circumcision missions, outreach programs, blood drives, and donation drives. With a unique application process and holistic pre-medical training, the Society seeks to extend this sense of community to aspiring medical students and beyond.

For our organization's 65th anniversary, the U.P. Pre-Medical Society aims to launch **Liwayway: MedCon 2021**, a **two-day medical convention** with the goal of enjoining the youth, specifically senior high school and undergraduate students, in the pursuit of medicine. This event will be held on **April 17, 2021 and April 24, 2021 via Zoom and Facebook Live**. It will feature speakers from various medical fields, namely renowned medical students and licensed general practitioners or specialized physicians, who will share their advice, insights, and real-life experiences on their respective medical journeys.

In line with this, we would like to request your institution to **formally endorse such an event to different Senior High School Departments under your Division, to be disseminated to SHS Students**. We believe that given the public health situation that we have now, it is very important that aspiring medical professionals of the country are guided and have knowledge on the necessary steps to take in their future career.

Should you agree to endorse it, here is the registration link for the event: tinyurl.com/MedCon2021.

Attached to this email is our [Formal Letter](#), [University Recognition letter](#) signed by the **Vice Chancellor** and our [Event Primer](#) with the details and program flow of the event. If you have questions and other concerns, please do not hesitate to contact us through this email or through my mobile number below. Thank you and hoping for your favorable response.

Respectfully,

Gabriela Oreta

Department of Education

Good day!

In line with this, we would like to request your institution to formally endorse such an event to different Senior High School Departments under your Division. To be disseminated to SHS students. We believe that given the public health situation that we have now, it is very important that equipping medical professionals of the country are skilled and have knowledge on the necessary steps to take in their future career.

Should you agree to endorse it, here is the registration link for the event: [https://www.facebook.com/medcon2021](#)

Attached to this email is our Request Letter. Request Letter signed by the Vice Chancellor and our Office. Please with the details and program flow of the event. If you have questions and other concerns, please do not hesitate to contact us through this email or through my mobile number below. Thank you and hoping for your favorable response.

Respectfully,

U.P. PRE-MEDICAL SOCIETY

Vision. Dedication. Capacity for Hard Work.

Greetings!

The U.P. Pre-Medical Society is a socio-academic organization in the University of the Philippines, Diliman Campus. Through the years, the Society has spearheaded numerous successful undertakings such as medical missions, outreach programs, blood drives, talks, and more in order to serve the children and the elderly of various foundations, different barangays outside of Metro Manila, the students, community, and different sectors of the university.

We are writing this letter to confirm that the U.P. Pre-Medical Society is a duly recognized university-wide organization. They have shown exemplary performance in being a socio-academic organization through their various activities that have served the UP community and beyond.

For their organization's 65th anniversary, the U.P. Pre-Medical Society aims to launch **Liwayway: MedCon 2021**, a **two-day medical convention** with the goal of enjoining the youth, specifically senior high school and undergraduate students, in the pursuit of medicine. The medical convention will feature speakers from varied yet equally relevant medical fields, namely renowned medical students and licensed general practitioners or specialized physicians, as they share their advice, insights, and real-life experiences on their respective medical journeys.

With a **formal endorsement from your department**, we believe that this project will be able to attain greater heights by reaching a wider student audience. Medicine is a profession built on service for all, similar to the heart of service both our institutions hope to instill in our respective students. Given that the current public health situation amplifies the need for more potential medical practitioners to embark on this arduous journey, we stand with the UP Pre-Medical Society in their call for the need of a platform to promote and motivate young minds to pursue the field of medicine.

The U.P. Pre-Medical Society is home to individuals from various degree programs; embodying 65 years of unsurpassed vision, unwavering dedication, and unparalleled capacity for hard work -- united in the pursuit of giving life! For these reasons, we believe that this would be a fruitful partnership with the help of your endorsement. The members of the MedCon 2021 are very eager to venture into a successful partnership with the Department of Education.

Should you have any concerns or queries, you may reach us through this email or contact any of the underlisted. We are also open to meet online to further discuss our proposal for a more fruitful collaboration.

Thank you very much and we look forward to your good office's favorable response. Together, let's give it life!
