Dear Sir/Madam

Last year we contacted you and expressed the desire to learn more about our program. We are one of the most innovative programs for children in the world as rewarded by the University of Toronto.

We are currently offering our courses to children in Saudi Arabia in partnership with the King Abdullah University of Science and Technology (KAUST).

We want to expand in your country and help your schools to have access to the most advanced STEAM program.

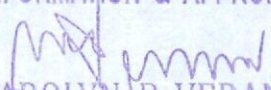

Below is the list of courses that we offer.

- Abacus, Math, University preparation courses
- Art, Craft, 2D and 3 D Animation,
- Coding (Scratch, JavaScript Python, HTML, CSS, Website development, app making, game development, animation)
- Robotics, Artificial Intelligence
- Science and Engineering

Please contact us today!

We are STEAM obsessed!

To: All School Administrators, Principals & Teachers In-Charge
(Elementary & Secondary)
FOR YOUR INFORMATION & APPROPRIATE ACTION

MARIE CAROLYN B. VERANO, CESO V
Schools Division Superintendent

About us!

We are obsessed about Science, Technology, Engineering, Art and Math (STEAM) concepts and want to share our obsession with children from all over the world to turn them into geniuses.

We have been featured by the University of Toronto as one of the world's most innovative program for children.

We have been selected to exhibit at the True Blue Expo which will take place at the Mars Discovery District downtown Toronto. This expo organized by the U of T is for only the most promising and best programs in Canada.

We are innovative because we use the best educational tools on the market, we use real robots during our robotics classes which think they are smart enough to learn to fly, to play piano, do the dab and everything else in between.

Our instructors are experts in their fields and will match your children's learning style to maximize their learning abilities.

**All year long
(closed on Sundays
and holidays)**

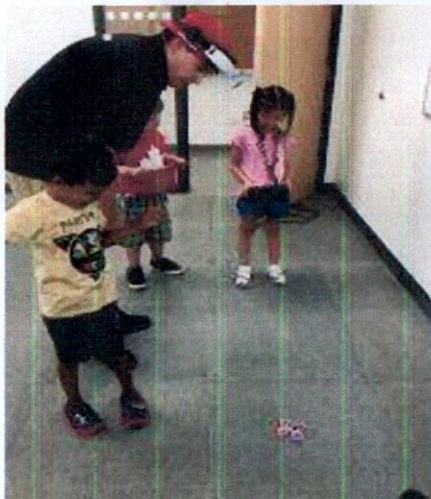

**From 10:00 am till 7:00
pm (EST)**

- ✚ Group classes
- ✚ Private tutoring
- ✚ Winter camps
- ✚ Spring camps
- ✚ Summer camps
- ✚ Workshops
