Blessed day

We hope things are well with you. Starting good positive news, we have innovated corporate social responsibility thru tree planting (mangrove and upland trees) in partnership with local fishing and upland farming communities, because of pandemics.

Tree Planting Benefits

1. Alleviate the climate change impact and increase in biodiversity
2. Additional livelihood for the marginalized communities
3. Healing impact to the society and pandemic proofing
4. Secure a sustainable and healthier future
5. Educational venue for the volunteers

Calatagan Mangrove Tree Planting

**Corporate Social Responsibility (Shared Value)
With Certificate of Conservation**

STAY SAFE! The fishing community can/will do the planting for you!! CALMADA Calatagan Mangrove Development Association

**Community Livelihood, Environment Conservation,
Secure Sustainable Future**

NATURE AWARENESS & CONSERVATION CLUB, Inc.
<http://philecotourism.wordpress.com>

3 WAYS OF VIRTUAL TREE PLANTING

1. Your group can request a **FREE talk on Creation, Community, Climate Change and Conservation**. Get to know the communities and the updates on the conservation. Zoom account will be from the requesting party. It's a 30 to 40 min talk. Donation is optional.

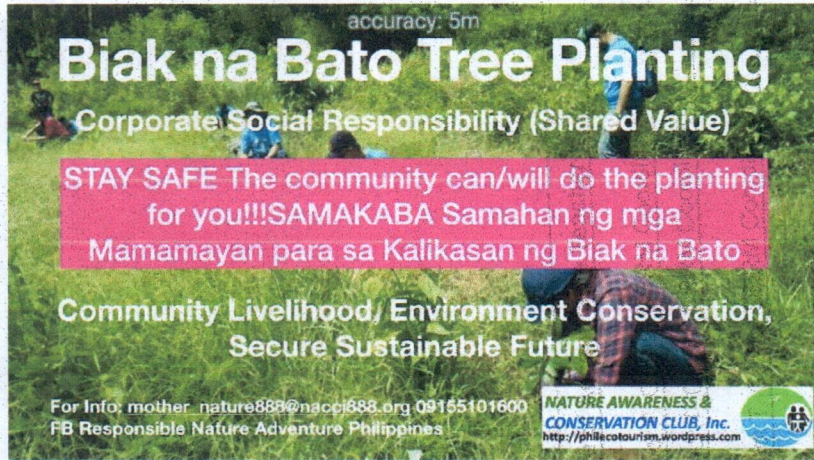

2. Sponsor a Community Assisted Tree Planting

For safety and protection of the requesting parties with noble endeavors to help the marginalized, help conserve the environment and help to have a sustainable future. The fishing/farming community will be the one planting for the companies/organizations/clubs/academes and private groups. FB Livestream of community planting

Our community sites are

- 1. Bataan - coastal and upland
- 2. Pampanga - coastal
- 3. Bulacan - coastal and upland
- 4. Cavite coastal
- 5. Batangas Coastal and Upland
- 6. Rizal Upland

After the tree planting, photo documentation, videos, certificate of conservation and social responsibility, Facebook Livestream and the name of the sponsor will be Geotagged in the google map. And please visit your trees after the travel restriction is lifted in the local area.

3. Adoption of Conservation site (5hectares for 5years). Letter of intent from the head of the sponsoring group is required. There will be consultation of stakeholders and leveling of expectations. Please do not hesitate to contact us by replying to this email. It's our pleasure to help with your CSR needs with tender loving care.

Stay safe, happy, and healthy

Carpe Diem

Violet
