DIVISION MEMORANDUM
No. 210, s. 2022

**UPDATED RESEARCH MANAGEMENT SYSTEM AND
PATAWID DI ADAL, RESEARCH MANUAL OF SDO BAGUIO CITY
AS OF JULY 2022**

To : CID and SGOD Chief Education Supervisors
Schools Division Research Committee (SDRC) Members
Public Elementary and Secondary School Heads
Division Research Technical Working Committee (TWC) Members
Teaching, Non-teaching, and Teaching Related Personnel
All Others Concerned

1. In strengthening and sustaining the culture of research in the Division based on Department of Education (DepEd) Order No. 39, series 2016 entitled *Adoption of Basic Education Research Agenda*; DepEd Order 16, series 2017 entitled *Research Management Guidelines*, this Office through the Schools Division Research Committee (SDRC) informs all teaching, teaching related, non-teaching personnel of the updated research management system as of July 2022. This is in conformance with the continual innovation based on the quality management system (QMS) of the Schools Division Office (SDO).
2. All teaching, teaching related, and non-teaching personnel are required to follow the contents of this Memorandum in the following Enclosures:
Enclosure 1: Implementing Research Management Systems Process Manual (PM-SGOD-PR-004)
Enclosure 2: *Patawid di Adal*, Research Manual of SDO Baguio City
3. For the complete quality forms and other references on research management, please access through <https://tinyurl.com/SDOBagRM2022>.
4. Immediate and wide dissemination of this Memorandum is required.

CULTURE OF RESEARCH IN BAGUIO CITY DIVISION

With the thrust of the Department of Education for evidence/research-based policies, processes and other mechanisms (DepEd Order [DO] No. 43, s. 2015; DO 4, s. 2016; DO No. 16, s. 2017; and other related issuances); the Schools Division of Baguio City has embraced and shifted its paradigm towards a deeper sense of research culture.

SDO Baguio City has institutionalized research guidelines, workflows, and other research mechanisms starting school year (SY) 2015-2016. This is proven by the submitted 57 with 45 approved researches for the SY 2015-2016. For SY 2016-2017, the submitted proposals increased to 213 proposals with 124 approved final researches by teaching, teaching-related, and non-teaching personnel. As of July 2022, there are 696 research papers being submitted for processing of the Schools Division Research Committee (SDRC) through the Schools Division Research Committee (SDRC) Secretariat at School Governance and Operations Division, Planning and Research. These researches significantly highlighted curriculum, classroom management, teaching techniques and strategies, learning environment, support services, educational planning, governance, and other educational research interests.

Positively, the shared commitment and support of all research advocates manifest proactive research endeavors in the future. Moreover, the created communal sense of accountability through research ensures that Baguio City learners may be able to receive the utmost level of quality education that they truly deserve. Indeed, it is hoped that the results of researches shall influence the policies being implemented in the Division.

GENERAL FORMATTING

MECHANICS AND STYLE

- To ensure readability, maintain Arial font and 11 font size, page set-up is 1" margin on all sides of the paper using standard A4 paper (Regional Memorandum No. 145, s. 2017, Coaching and Assistance to Research Enthusiasts, 2022).
- The entire manuscript is double-spaced (except the Abstract) with aligned left margin.
- Adopting the general guidelines of the American Psychological Association (APA), 7th Edition (2020), pagination is at the upper right corner of the paper after the page header.
- Preferably, there should be six (6) to ten (10) pages (Title page to References) for the proposal. For the whole manuscript (including the proposal), the pages should be at least 15 to 20 pages (Title page to References). Please write with clarity and relevance focusing on your context of study at all times.
- Use third person point of view (the researcher/s).
- Proponent may use “participants” for action research and “respondents” for basic research.

- Do not impress by using linguistic devices that may lead to confusion of readers. Remember: the study is to answer problem(s)/gap(s)/issue(s).
- Operational terms should be integrated across the text of the paper. No need to enumerate.

CITATION AND REFENCING

- Citation and referencing: adopt the APA 7th Edition, or refer to www.apa.org for more information.

SCIENTIFIC NAMES

- The scientific nomenclature of biological species clearly identifies the organism named and the person who first named the species. The genus (always capitalized) and the species (not capitalized) are given in italics. For example, the Philippine brown deer is *Rusa marianna*, and the dove tree, found in parts of China, is *Davidia involucrate* (Fagen, R., nd).
- For others guidelines for the use of scientific names in research, refer to <http://www.aje.com/en/arc/editing-tip-scientific-names-species/>

ABBREVIATIONS

- Words like Department of Education shall be spelled-out the first time it is being used and can be abbreviated as DepEd in the succeeding text.
- For more guidelines on abbreviations, refer to <http://blog.apastyle.org/apastyle/abbreviations/>

DOCUMENTATIONS

- Attach 4-8 pictures as proof of the conduct of papers. When soft copy is requested, submit in jpeg format.

FOR BERF RESEARCHES

SUBMISSION OF DOCUMENTS

PROPOSAL	FINAL
Submit 1 copy for SDRC Review, once approved by SDS, submit 6 copies placed on an A4 size folder (color brown), research proposal paper fastened left (5 copies for Regional Office, 1 copy for Planning and Research Unit).	Submit 1 copy for SDRC Review, once approved by SDS, submit 3 copies placed on an A4 size folder (color brown), with the full research report, copy of MOA, and letter of acceptance from Regional Office fastened left.

SECTIONS OF THE RESEARCH PAPER

Below are the major contents/sections of the research manuscript with its specific content and formatting styles based on DepEd Order No. 16, s. 2017 entitled *Research Management Guidelines*; Regional Memorandum No. 145, s. 2016 entitled Adoption of the Forms and Styles of all Research Activities Conducted across All Governance Levels; Publication Manual of the American Psychological Association (APA), Seventh Edition (2020), and some contextualized formatting of the Schools Division of Baguio City.

BASIC RESEARCH

Title Page (separate page with running head)

Title

- Utmost 12 words; may include the 13th word to complete the thought/idea
- Reflect the general emphasis of the research
- Please do not use acronym.
- Coined words, if any, are allowed but these should be defined as contextualized in the study (e.g. as teaching technique, theory).
- Format: Title case (centered, boldface, uppercase and lowercase heading; use inverted triangle if necessary)

Researcher's/s' name

- First Name/ Middle Name/Last Name

Institutional affiliation

- Name of School/Office
- School Address/Office Address
- Schools Division Office

**Action/Basic Research Proposal/Final
*Month and Year Conducted***

Abstract (separate page)

- It should be 150-250 words.
- This is a concise summary that enables readers to quickly assess the contents and direction of the paper. The abstract concisely describes the topic/purpose/scope, methods, principal findings and the conclusions.
- Include key words relative to the study.

Introduction and Rationale.....	5
---------------------------------	---

Introduction and Rationale

- Include the rationale for the research and relevant social, policy, or practice context of the study. The introduction should explain why the research study is being undertaken (e.g. to answer a question about a specified problem in education) and how the results could be used in action planning and/or policy formulation and development.
- Set the tone of the paper by clearly narrating the problem(s)/gap(s)/issue(s)/ being identified or observed in the actual classroom setting or workplace.
- Likewise, present literature gaps (confirmed and negated results or recommendations) to validate that your topic is researchable.
- Communicate precisely the general purpose or significance of the research paper.

Literature Review

- Focuses on key issues which underlie the research; major findings, problems identified, recommendations, and questions raised in previous research; the main points of view and controversies; critical evaluation of these views, their strengths and weaknesses; general conclusions about the research papers; what research still needs to be done, and what knowledge gaps remain that the study will aim to fulfill.
- Do not overstate literature as we are only given limited pages for the entire study. Hence, provide only sufficient literature necessary to support your study.

Research Questions

- Identifies the problem/s which will be addressed by the research in terms of investigating or testing an idea; trying out solutions to a problem; creating a new procedure or system; explaining a phenomenon; or a combination of any of these.
- State the general and specific objectives of the study.
- State your problems in question form.
- Indicate the null hypothesis, as needed.

Scope and Limitation

- Coverage of the research in terms of location, time, respondents, etc.; inherent design or methodology parameters that can restrict the scope of the research findings and are outside the control of the researcher.
- Contains details of how the research will be conducted.
- Disregard the introduction such as “This section describes the methods used in the study...”. Obviously it is implied with the heading and subheadings alone.

Research Methodology

- Contains details of how the research will be conducted.
- Disregard the introduction such as “This section describes the methods used in the study...”. Obviously it is implied with the heading and subheadings alone.

Research Design

- Present and discuss the specific research design
- Basic guidelines in determining the quantitative research design (use other designs as applicable to the research) :
 - Descriptive comparative – if you want to know the “difference” of variables
 - Descriptive correlation – if you want to know the “relationship” of variables
 - Descriptive predictive – if you want to know the “values or ranks” of each predictors/factors

- Basic guidelines in determining the qualitative research design (De Guzman, 2013). Use other designs as applicable to the research:
 - Narrative study – if focus of study is narrating an interesting story
 - Case study – if focus of study is exploring an in-depth issue
 - Grounded theory – if focus of the study is understanding a process
 - Phenomenology – if focus of the study is revealing the essence or meaning of a phenomenon
- Use of mixed method research design is also encouraged. Please choose appropriate type.

Participants and/or other Sources of Data and Information

- Details should be provided about who will participate in the research: number of people and characteristics of those who will participate in the research; and how will the sample be selected and recruited.
- State actual acceptable sampling over total population in the locale of your study. If you intend to get overall population, so be it.
- Secondary data (e.g. grades, health records, anecdotal data)
- Include sampling scheme in table format (Refer to Table Presentation on page 28 for sampling scheme template)
- For qualitative, select your participants accordingly (De Guzman, 2013):
 - Narrative study: 1-2 only
 - Case study: 1 to multiple
 - Grounded theory: 20 or more
 - Phenomenology: 3-13

Sampling

- Details should be provided about who will participate in the research: number of people and characteristics of those who will participate in the research; and how will the sample be selected and recruited.
- State actual acceptable sampling over total population in the locale of your study. You may also use the total population.
- Include sampling scheme in table format (Refer to Table Presentations for sampling scheme template)
- Include the sampling technique used preferably scientific/probability sampling. For qualitative, select your participants accordingly (De Guzman, 2013):
 - Narrative study: 1-2 only
 - Case study: 1 to multiple
 - Grounded theory: 20 or more
 - Phenomenology: 3-13

Data Collection

- The various instruments and procedures for data collection should be outlined and extensively discussed.
- For the procedures, narrate explicitly what you will do in your research.
- For the instrumentation, describe your tool. What is the level of measurement (Nominal, Ordinal, Interval, Ratio)? Will you use Likert scale? Interview schedule?
- Describe the validity and reliability of your data gathering instrument/tool
- Attach data gathering tool

Plan for Data Analysis

- Indicate how the data will be analyzed and reported; it should specify the qualitative/and or quantitative methods that will be used in analyzing the data gathered for the research.
- If quantitative research using inferential statistics, include in the plan for data analysis (proposal paper) the discussion on possible use of parametric and non-parametric tests depending on the data which will be gathered. In the final paper, specify the actual treatment being employed in the research.
- Basic guidelines in determining the statistical treatment for quantitative research:
 - Descriptive comparative – use t-test if you want to measure “significant difference” of two (2) variables; analysis of variance (ANOVA) if three (3) variables where population is normally distributed, and its counterpart if normality assumption was not met. Choose appropriate mean comparison tests based on your variables
 - Descriptive correlation – use Pearson Product Moment Correlation (for normally distributed population) and Spearman Rank (if normality assumption was not met) if you want to measure the “relationship” of variables
 - Descriptive predictive – may use Regression if you want to determine the “predictive model” and to determine if your identified factors are contributory to your dependent variable/s
 - Descriptive – use mean, frequency distribution, etc. if you want to assess specific variables only
- Basic guidelines in the analysis of data for qualitative research (De Guzman, 2013):
 - Narrative study – story is presented through generalization
 - Case study – issue is presented with lessons learned
 - Grounded theory – process is presented with a theory
 - Phenomenology – essence or meaning of a phenomenon is presented with a collective description

Ethical Issues

- Identify ethical concerns that could possibly emanate from the conduct of the research, and elaborately discuss how to prevent these from taking place. It can include, but not limited to the following: right to conduct a study or investigation to answer a question; secure free prior and informed consent from respondent; issues of confidentiality and anonymity; written approval for use of materials with copyright (e.g. secondary data sets, data collection tools).
- Likewise, include the briefing and debriefing mechanisms.

Timetable / Gantt Chart

- Contains the research timelines — when will the project begin and how long will it take for it to be completed; include time estimates for each step in the research process (e.g. 5 days, 2 weeks).

Cost Estimates

- For BERF, include detailed research cost, broken down per research task, activity and/or deliverable. It can be further grouped by tranche for easier reference of the Evaluation Committee. Refer to the Availment Process for the activities falling under each tranche.

Results and Discussion

- For quantitative study, present as subheading the results of the study based on your statement of the problems.
- For qualitative study, present your themes (if any) as your subheadings.
- Observe the following major contents in this part: discussion (D), corroboration (C), and implication (I).
- Follow formatting of tables and figures of the APA (2010, pp. 127-167).

Conclusion and Recommendation

- For the conclusion: restate the overall findings/results of the research based on the research questions. State in paragraph form.
- For the recommendations, enumerate the recommendation/s based on the major implications of the study.

Plans for Dissemination and Advocacy/ Dissemination and Advocacy Plans

- Indicate how the results of the research will be cascaded to the intended user of the research findings (i.e. presentation in conferences, LAC sessions, INSET, brochures, publications).

References

- Using APA referencing, provide in text of work and reference list consistently and accurately

DISSEMINATION AND UTILIZATION

(DepEd Order 16, s. 2017)

Dissemination and utilization of research results are crucial in the achievement of learning outcomes, and improve teaching-learning and governance processes in schools, SDOs, ROS, and CO.

Research managers, in collaboration with the researchers, will take measures to ensure the dissemination and utilization of research results in various settings across governance levels. Further, researchers will disseminate and discuss their research results and recommendations in the area/office/governance level where the study was conducted, preferably attended by the respondents. Research managers will provide a venue to actively disseminate results from completed research studies, and encourage everyone to analyze, consider, and incorporate these results in their practices.

The region and division may organize research conferences, research forums, and policy forums to gather education researchers to share their research findings, gather new inputs and research ideas, and discuss policy options based on research results. Further, research managers may also publish research journals and bulletins for wider dissemination, and as a potential archival mechanism for completed research.

In addition, the region and division may utilize completed researches to improve learning outcomes and governance processes in their respective areas. Evidence should be heavily used in the development of policies, frameworks, programs, and projects; strategic, operational, and mid-term plans; training programs; and instructional materials, to mention a few governance strategies.

With full support of school heads, teachers will disseminate and utilize their research through existing mechanisms such as, but not limited to, the following venues: Learning Action Cells (LACs). The LAC sessions may be maximized by sharing the results of ongoing and/or completed research. These may serve as input for teachers in their respective teaching-learning strategies.

- In-Service Training (INSET). The training design may include discussions on research results and how these can be utilized School Governing Council (SGC). Research results and proposed actions can be presented during school planning and monitoring activities.
- Enhanced School Improvement Plan (eSIP) | Annual Implementation Plan (AIP) - research results may be incorporated in the SIP. School planning activities may bring forth possible research topics. These may also be plotted as research initiatives in the SIP and AIP.
- School Report Card (SRC). Interventions made as a result of action results may be included in the SRC.

CERTIFICATE OF UTILIZATION AND ADOPTION OF RESEARCH

Requirements in requesting for certificate of utilization and adoption of approved and conducted research papers for ranking, awards, and other purposes, please follow below instructions:

1. Submit to SGOD-PRS all means of verifications such as school/division memorandum, pictures, attendance sheets, list of teachers/personnel who utilized and adopted the research results/recommendations, and other documents for references.
2. Once verified, SGOD-PRS to prepare the Certificate of Utilization and Adoption to be signed by the Schools Division Superintendent.

CODE OF CONDUCT

A. RESEARCHERS

1. Observe confidentiality. Use codes/pseudonyms to safeguard the identities of your respondents.
2. Follow the research workflow.
3. Conduct your action/basic research not for compliance sake but as your contribution to sustain or elevate human dignity.
4. Remain objective. Never ever manipulate the data being gathered. Findings that are non-significant under p-value are significant in its sense.
5. No plagiarism nor self-plagiarism please! Craft an original manuscript. Remember: Integrity of research matters.
6. Believe in yourself! Go ahead, everyone can do research!

B. DIVISION RESEARCH TECHNICAL WORKING COMMITTEE (TWC) / SCHOOLS DIVISION RESEARCH COMMITTEE (SDRC)

1. Respect the writer/researcher at all times.
2. Constructive feedbacks promote esteem while sarcasm over the paper possibly create ripple of discouragements to writers/researchers and the whole research environment.
3. Let us develop a positive sense of communal goal towards research-oriented educational practices and policies!

For other research ethics, please refer to DepEd Order No. 16, s. 2017.

FUNCTIONS OF THE KEY PERSONS INVOLVED

Division Research Coordinator

1. Receives the research proposal from the Researcher/School Head/School Research Coordinator
2. Reviews the paper
3. Countersigns before the recommending approval of the Chairman of the Schools Division Research Committee (SDRC).

Baguio City Division Research Technical Working Committee (TWC)

1. Facilitates the panel review sessions from the proposal to the final paper together with the SRC on official business.
2. The two (2) or more (depending of the research topic) TWC members shall sign in the Division level both on the cover and approval pages, respectively immediately after the panel review session.

Schools Division Research Committee (SDRC) for Basic Education Research Fund (BERF)

1. The Members shall review the paper.
2. The Co-chair (Chief, Schools Governance and Operations Division for governance and administrative matters or Chief, Curriculum Implementation Division for curriculum matters) shall assess the paper using the research rubrics as indicated in DepEd Order 16, s. 2017.
3. The Chair shall review the paper and recommend for approval to the Schools Division Superintendent (SDS).

SAMPLE ABSTRACT

Abstract

The universal widespread of literatures on inclusion indicates how extensive the recognition it has undergone as a significant educational framework. However, the lack of related studies in the Philippines prompted this research to find among intermediate pupils and teachers their perceived level of inclusive learning practices in the country along three factors, namely: learners, teachers, and process. The study significantly aimed to recommend an appropriate plan of actions to enhance the prevailing teaching and learning practices. It utilized the sequential explanatory design by initially employing the quantitative method using an adapted tool, the Index for Inclusive Practices towards developing learning and participation in schools. Findings of the quantitative phase were substantiated through the qualitative phase using the interview method to parents, administrators, and the division education supervisor in-charge in inclusive education. The overall findings of the study revealed that the inclusive learning practices are always practiced in championing learning as the core essence of teaching- learning processes. The onset of gaps from the study conveyed critical attention in the “hidden curriculum” by sensitively processing the lived experiences of each learner. This is unfolded with an emphasis on the teaching of critical thinking, discipline and mutual respect among learners of which the educational community should sustainably support.

Keywords: inclusive education, inclusive learning practices, teaching-learning process, critical thinking, educational community, hidden curriculum

Rationale of the Research (10 points)	Not described (0 points)	The research proposal presents a general description of the topic or focus of inquiry. (5 points)	The educational relevance and timeliness of the research topics are shown. It explains the need to research to understand a phenomenon, advance or validate knowledge, improve a situation, or address an issue/problem. (8 points)	The nature, extent, and salience of the research topic is comprehensively discussed. Different aspects of the research setting are elaborated showing in-depth and critical analysis of the situation. Policy implications, benefits, and limitations of the study are stated. Research Questions (20 points)	Not stated (0 points)	The research proposal has a stated aim, objective, or general research questions. (10 points)	The research questions specify the variables or the focus of inquiry. Key elements of the research questions are reflected in the title of the proposal. (15 points)	The research questions logically proceed from the context of the study. They are formulated to clearly show the extent and different angles of inquiry (ex: different variables of interest, relationships to be probed, geographical and temporal scope). (20 points)

Use of Related Literature and Proper Citation (10 points)	Not provided (0 points)	The research proposal cites theories and/or previous studies related to the present research. Sources are properly acknowledged. (5 points)	Viewpoints and issues underlying the present research are discussed and synthesized. They are critically evaluated to identify inconsistencies or gaps in current knowledge or educational policy that the study intends to address. Constructs are defined and presented in a conceptual framework. The citation of literature sources is consistent. (10 points)				
	Participants and/or other Sources of Data and Information (10 points)	not stated (0 point))	The research proposal states the study's target participants and/or other sources of data and information (ex: divisions, districts, offices, schools, learners, teachers, parents, documents, secondary data, others) (5 points)	Details are provided about the target participants (ex: number, characteristics, sampling procedure, if any) and/or other sources of data

Work Plan and Timelines (10 points)	Not included (0 points)	The research proposal includes a list of major activities and their timelines. (5 points)	A detailed work plan is provided covering the start to completion of the research. Timelines are realistic and show concretely how the research will unfold over the allowed period. The overall plan reflects the proponent's capacity to concretize ideas into clear and sequential steps to be undertaken. (10 points)						
Cost Estimates (10 points)	Not included (0 points)	The research proposal includes a list of major items and their estimated costs. The total cost is shown. (5 points)	A detailed breakdown of items with the corresponding costs is furnished. The overall plan reflects the proponent's capacity to project-specific expenses that she or he will be accountable for. For BERF, the items and costs reasonably reflect the funding needs of the research and adhere to BERF guidelines. (10 points)

According to United Nations Educational, Scientific and Cultural Organization (UNESCO) [2015]:

There is general consensus that there are many ways of conducting and using action research because it has to fit the people involved, the question to be addressed, etc. The experienced action researcher Herbert Altrichter reconfirms that: "What we need to look for is NOT whose version of action research is THE correct one, but rather, what it is that needs to be done, and how action research can further those aims" (as cited, Noffke in Hollingsworth, 1997, p. 312; quoted in Altrichter, 1999, pp. 1-2).

We, in the Schools Division of Baguio City embrace the culture of research as we aim to develop evidence-based strategic policies, programs, and other mechanisms toward maximizing the teaching-learning processes.

To GOD be the glory!
