**SUBJECT :** INVITATION FOR THE VIRTUAL CONDUCT OF  
NATIONAL SCIENCE AND TECHNOLOGY FAIR (NSTF) 2022

**DATE :** 15 July 2022

The National Science and Technology Fair (NSTF) is one of the widely anticipated events of the Department of Education. This activity serves as a venue for cultivating critical thinking, creativity, innovation and collaboration among learners, science educators, other stakeholders, and industry partners. This 2022, DepEd, through the Bureau of Curriculum Development, announces its virtual conduct of NSTF from August 2 to 5, 2022.

The increasing demand for a more robust implementation of related projects that delve on research, science, and technology, paves the way for this year's theme: *Expanding the Horizon: Futures of STEM*. This year, the Department will feature new exciting and equally challenging events that will also highlight the flexibility of learners to combine their knowledge of science and technology with their inventive skill, as they participate in the following categories/events:

*Likha* (research proposal competition),  
STEMTokperiments (Tiktok experiment videos),  
*Siyensikula* (video-creation competition),  
*SciTalks* (virtual conference), and  
*AghambayaniJuan* (knowledge sharing, community engagement, and collaborations between and among students, teachers, industry-partners and experts)

In connection to this, we wish to invite the students, teachers, supervisors, school heads and other stakeholders from your region to participate in the National Science and Technology Fair on August 2 to 5, 2022, which will be held virtually and live via DepEd Philippines. The different entries from the different regions will be exhibited in a virtual interactive platform.

Registration starts on July 27, 2022 though this link: <https://bit.ly/NSTF2022REG>. For more details, Ms. Anna Liza Chan, Supervising Education Program Specialist and focal person for NSTF will coordinate with you to discuss other related concerns on the conduct of the activity. Should you need to contact her, she may be reached at telephone number (+63) 915 872 4414 or through email address [annaliza.chan@deped.gov.ph](mailto:annaliza.chan@deped.gov.ph).

For your information.
