**DIVISION MEMORANDUM**

No. **271-2024**

**INCLUSION OF DENGUE PREVENTION TO THE BRIGADA ESKWELA**

To: All Public Elementary and Secondary School Heads  
All School Health and Nutrition Personnel  
All Others Concerned

1. Local studies show that Dengue is predicted to increase during the Month of May to October (Prediction of Outbreak Periods of Dengue in Baguio City, Philippines using Machine Learning Classification Models, Jozelle Addawe et al.). With this accurate data, we would like to include Dengue prevention measures in the Brigada Eskwela of every school.
2. The following are measures that the school can do to search and destroy Dengue breeding places:
  - a. Clean up drive of canals;
  - b. Clean up drive of school fountains, aquaponics, and fishponds;
  - c. Covering of water collection system such as drums, etc.;
  - d. Disposing unnecessary items that can collect rain water which leads to stagnant water where mosquitos can breed.
3. The implementation aims to lessen or stop the spread of dengue in our schools
4. Immediate and wide dissemination of this Memorandum is desired.
