YISRAEL SOLUTIONS AND TRAINING CENTER CONDUCT OF AN ONLINE TRAINING ON BREACH RESPONSE AND CYBER SECURITY

The Yisrael Solutions and Training Center Inc will be conducting an **Online Training on Breach Response and Cyber Security** from 15-17 January 2025 via Zoom. The primary objective of the security awareness program is to educate users on their responsibility to help protect the confidentiality, availability and integrity of their organization's information and information assets. The participants will be able know the state-of-the art information about Cyber Security, it's importance, good practices and benefits to the organization. Participants can have a view on different phases of security threats: System Hacking, Malware Threat, Sniffing, Social Engineering, DDOS Attack and How can they respond to them.

Participation of interested non-teaching personnel shall be subject to competency responsive and needs based policy stipulated in DepEd Order No. 32, s. 2011 titled: "Policies and Guidelines on Training and Development (T&D) Programs and Activities." The use of DepEd funds is subject to the approval of the respective authorities and contingent upon fund availability, adhering to the usual accounting and auditing rules and regulations.

For more details and further inquiries please call Mr. Bonn Marc Pecson, at r 0908-1094-962(Smart)/ 0917-1157-990(Globe); landline (02) 6163086; telefax at (02) 956-2025.

YISRAEL SOLUTIONS AND TRAINING CENTER, INC.

SUBJECT: "INVITATION TO ATTEND TO AN ONLINE TRAINING FOR BREACH RESPONSE AND CYBER SECURITY"

Dear Sir/Madam,

Greetings!

Yisrael Solutions and Training Center Inc is committed for the welfare of the country and the people. In line with the recent pandemic or the amid spread of COVID 19, the conduct of training classes or seminar/workshops all over the country had been temporarily postponed indefinitely until further notice to ensure the security, health and safety of our countrymen. However, we have decided to continue our operations with virtual classrooms and remote work through the use of digital communication technology.

As an alternative option for face-to-face, we would like to offer you our online workshop, the online equivalent of being in a training room and learning together as a group through collaborative activities which will be conducted over the internet.

Cyber security awareness training is essential to reduce the risk that employees exposed and tricked by sophisticated phishing or social engineering methods into serving unknowingly as entry points or worst, breach incidents that can affect organization information and data systems. This training could also help the company/agency to respond in a security breach and comply with the necessary notification requirements under the Philippine Data Privacy Act.

The primary objective of the security awareness program is to educate users on their responsibility to help protect the confidentiality, availability and integrity of their organization's information and information assets. The participants will be able know the state-of-the art information about Cyber Security, it's importance, good practices and benefits to the organization. Participants can have a view on different phases of security threats: System Hacking, Malware Threat, Sniffing, Social Engineering, DDOS Attack and How can they respond to them.

During the training, the speakers will also confer on Breach simulation briefing and simulation of attack and a Breach Notification Requirements of RA 10173, a deep discussion on breach notification requirements under the DPA and Circular 16-03 and additional information on RA 10175 "Cybercrime Act"

Participants will take their time to report the results of their investigation on the given breach simulation, both technical and compliance report that is why we encourage you to form or create a Breach Response team (minimum number or three (3) or more participants) to be headed by the Data Protection Officer (DPO) to attend and participate on the "Breach Response Team Report.

While we are staying at home to help controlling the spread of COVID 19, we are inviting you to attend in our online workshop classes for Breach Response and Cyber Security Threat and
