CONDUCT OF SCHOOL HEALTH AND NUTRITION STRATEGIC PLANNING FOR SY 2025-2026 CUM TEAM BUILDING

TO: All Public Schools District Supervisors
Public Elementary and Secondary School Heads
School Health and Nutrition Personnel
Others Concerned

1. School health and nutrition are critical pillars in achieving optimal student learning and development. A well-nourished and healthy learner is more likely to perform better academically, attend school regularly, and engage actively in the learning process. As we gear up for School Year (SY) 2025-2026, it is imperative to review, align, and enhance our existing school health and nutrition programs to ensure they are responsive to the evolving needs of our learners and the broader school community.
2. The Strategic Planning Workshop cum Team Building aims to provide a focused platform for school health and nutrition coordinators, implementers, and stakeholders to assess current programs, identify gaps, and develop targeted strategies for improvement. This initiative will also serve as a venue to incorporate recent policies, integrate evidence-based practices, and plan sustainable interventions that promote the holistic well-being of every learner.
